### **General information on the Company**

20UGS (UCITS) FUNDS (the "Company" or the "Fund") is an open-ended investment company established as a *Société d'Investissement à Capital Variable* (investment company with variable capital) formed as a *société anonyme* (public limited liability company) in accordance with the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as amended from time to time (the "Law of 2010").

The Fund is subject, in particular, to the provisions of Part I of the Law of 2010, which relate specifically to undertakings for collective investment as defined by the European Directive of 13 July 2009 (2009/65/EC).

The Fund was incorporated for an unlimited period of time on 8 May 2013 and is governed by the Luxembourg law of 10 August 1915 on commercial companies, as amended, and by the Law of 2010.

The Fund is registered at the *Registre de Commerce et des Sociétés* with the District Court of Luxembourg under the number B-177 353.

The Articles have been published in the *Mémorial C, Recueil des Sociétés et Associations* (the "Mémorial") of 29 May 2013 and have been filed with the Chancery of the District Court of Luxembourg. Any interested person may inspect this document on the Chancery of the District Court of Luxembourg website at www.rcsl.lu. Copies of the Articles are also available, free of charge and on request, at the registered office of the Fund.

The minimum capital of the Fund as provided by law, which must be achieved within 6 months from the date on which the Fund has been authorized as an undertaking for collective investment under Luxembourg law, is EUR 1 250 000. The capital of the Fund is represented by fully paid-up Shares of no par value. The initial capital of the Fund has been set at EUR 31 000 or the equivalent in another currency.

The Fund is open-ended which means that it may, at any time on the request of the shareholders, redeem its Shares at prices based on the applicable Net Asset Value of the relevant Sub-Fund.

In accordance with the Articles, the Board of Directors may issue Shares in each Sub-Fund. A separate portfolio of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective applicable to the relevant Sub-Fund. As a result, the Fund is an "umbrella fund" enabling investors to choose between one or more investment objectives by investing in one or more Sub-Funds.

The Shares have not been registered under the United States Securities Act of 1933, as amended (the "1933 Act"); they may therefore not be publicly offered or sold in the USA, or in any of its territories subject to its jurisdiction or to or for the benefit of a US Person as such expression is defined by Article 10 of the Articles and hereinafter. The Shares are not being offered in the USA, and may be so offered only pursuant to an exemption from registration under the 1933 Act, and have not been registered with the Securities and Exchange Commission or any state securities commission nor has the Company been registered under the Investment Company Act of 1940, as amended (the "1940 Act"). No transfer or sale of the Shares shall be made unless, among other things, such transfer or sale is exempt from the registration requirement of the 1933 Act and any applicable state securities laws or is made pursuant to an effective registration statement under the 1933 Act and such state securities laws and would not result in the Company becoming subject to registration or regulation under the 1940 Act. Shares may furthermore not be sold or held either directly by nor to the benefit of, among others, a citizen or resident of the USA, a partnership organized or existing in any state, territory or possession of the USA or other areas subject to its jurisdiction, an estate or trust the income of which is subject to United States federal income tax regardless of its source, or any corporation or other entity organized under the laws of or existing in the USA or any state, territory or possession thereof or other areas subject to its jurisdiction (a "US Person"). All purchasers must certify that the beneficial owner of such Shares is not a US Person and is purchasing such Shares for its own account, for investment purposes only and not with a view towards resale thereof.

### Information to the Shareholders

The annual general meeting of shareholders takes place in Luxembourg City at a place specified in the notice of meeting on the third Thursday in the month of April at 10.00 am. If such day is not a Business Day in Luxembourg, the annual general meeting shall be held on the next following Business Day in Luxembourg.

The accounting year of the Fund starts on the first January and terminates on the thirty-one December of the same year.

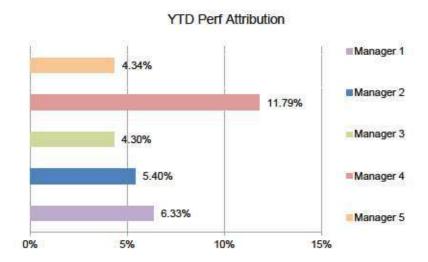

The Fund publishes annually a detailed audited report on its activities and on the management of its assets; such report shall include, inter alia, the combined accounts relating to all the Sub-Funds, a detailed description of the assets of each Sub-Fund and a report from the Auditors.

The list of changes in the portfolio for the period ended December 31, 2017 is available at the registered office of the Fund.

### **Report of the Board of Directors**

### 20UGS (UCITS) FUNDS TOP 25 EQUITY

- The 20UGS Top 25 Equity Fund (Class A, USD) returned +3.8% net in Q4, underperforming the MSCI AC World, up +5.4%. As such, the Fund closes the year up +31.8%, well ahead of the index at +21.6%.
- Over the quarter, confidence about Eurozone and Chinese economies, the cyclical recovery in EM and the broad-based nature of global growth drove markets higher with ever lower volatility of returns.
- The quarter capped off a strong year for global equities, with investors shrugging off geopolitical risk and the prospect of CB retreat and instead focused on the economic rebound bedding in around the world.
- US equities had a strong final quarter as corporate earnings seemed to support investor optimism and Congress passed a sweeping tax reform bill that will reduce corporate rates and facilitate a repatriation holiday likely to boost stock buybacks. A sharp tech sector sell-off in November proved to be short-lived.
- US holdings were up +3.2% in Q4, underperforming the S&P 500, which returned +6.1%.
- Becton Dickinson & Co. (Q4: +9.2%, 2017: +31.3%) was the top performing stock in Q4, bouncing after it won EU approval
  for its \$24bn bid for CR Bard in October and then again after it released better-than-expected Q3 results in November.
  The stock gave back some gains after completing the acquisition in December when S&P downgraded its credit rating
  on the combined company's greater leverage.
- Another notable contributor in Q4 was S&P Global (Q4: +8.4%, 2017: +59.3%), which has seen a near-uninterrupted climb this year thanks to its robust index business model and the muted path of rates.
- The worst performing stock in Q4 was Charter Communications (Q4: -7.6%, 2017: +16.7%). Many US cable companies suffered in the second of 2017 as intense competition from online streaming services, as well as from AT&T, led to a decline in their multimedia market share and a loss of subscribers.
- The European market had a mixed quarter with a strong EUR and the collapse of German coalition talks in December weighing on stock prices, while fundamental economic data continued to improve.
- Within the portfolio, European positions were up +5.8%, significantly outperforming the Stoxx 600, which delivered a paltry +0.3% in Q4.
- Wirecard (Q4: +22.5%, 2017: +128.3%) was once again the stand-out performer during the quarter. The stock has had
  an excellent year with results that consistently beat expectations, a first foray into the US market, and speculation that it
  would soon become an acquisition target. In Q4, the positive trend continued despite allegations connected to the Paradise
  Papers leak that it facilitated illegal payments and contagion from the US tech sector sell-off in November.
- The biggest detractor in the European book was Unilever (Q4: -5.5%, 2017: +23.5%), which was added in November. The stock moved down since releasing weaker-than-expected Q3 sales in October and the tail end of this drawdown was captured by the Top 25 portfolio after the stock was bought.
- Emerging Markets have continued to benefit from inflows, as a synchronised cyclical upswing takes hold in many of large commodity exporters who have suffered since the Chinese slowdown in 2015.
- EM holdings were the worst performing bucket in Q4, up +0.4%, significantly underperforming the MSCI EM, which returned +7.1%.
- The biggest contributor in Q4 was Samsung (Q4: +5.8%, 2017: +58.8%), which posted very good results at the end of October and benefited from a cooling of tensions on the Korean peninsula. The stock had a sharp drawdown after tech sold-off in the US, but it recovered sufficiently to end the quarter higher.
- Banco Bradesco (Q4: -5.1%, 2017: +34.3%) was the sharpest detractor over the quarter. A high beta name, the stock suffered when it became increasingly clear to investors that Temer's structural reform programme, and pension reform in particular, had stalled in Parliament.
- There was similar turnover in the portfolio in Q4 as in the previous quarter.
  - o In October, Ryanair was sold and Applied Materials was added.
  - o In November, Danone was sold and Sage PLC was added.
  - o In December, Comcast was sold and Activision Blizzard was bought.
- Relative to the MSCI AC World, the Fund is underweight N. America (43% vs. 55%), overweight Europe (37% vs. 23%), market-weight Asia ex-Japan (12% vs. 12%) and overweight Latin America (8% vs. 1%).
  - o It has no Japan or Africa and Middle East exposure vs. 8% and 1%, respectively, for the Index.
- The Fund is overweight IT (44% vs. 18%), Industrials (12% vs. 11%) and Consumer Staples (16% vs. 8%), roughly market-weight Telecommunications (4% vs. 3%), and underweight Consumer Discretionary (4% vs. 12%), Financials (12% vs. 19%) and Health Care (8% vs. 11%).
  - o It has no Utilities (vs. 3%), Real Estate (vs. 3%), Materials (vs. 5%) and Energy (vs. 6%).

### 20UGS (UCITS) FUNDS TCW UNCONSTRAINED PLUS BOND STRATEGY

In the simplest terms, a lot went right for markets in 2017, as an almost "Goldilocks" scenario of open markets, ongoing global central bank accommodation (notwithstanding the Fed's hikes and balance sheet reduction) and largely inflation-free economic growth combined to propel risk assets higher. Most U.S. macroeconomic data points were decidedly positive to end the year, reflected in improving measures of job creation, retail sales, industrial production, and capacity utilization. Further fueling animal spirits, the political apparatus in Washington finally agreed on a comprehensive tax reform bill – a long-absent fiscal achievement – providing for a substantial cut in corporate taxes as well as lower personal rates. In contrast with previous tax legislation, this new law comes at a time when unemployment is relatively low at 4%, thereby providing stimulus to an economy that is already showing momentum. To this point, the 3Q GDP print reported in December came in at 3.2%, bringing the year-over-year growth rate to 2.3%, up from 1.8% at the end of 2016. Despite this increase in economic activity, consumer price pressures remained muted, with the latest core CPI and core PCE prints coming in at 1.7% and 1.5%, respectively, well below the Fed's nominal 2% target. Above all, volatility remained dormant throughout the year with both the VIX and MOVE Indices at all-time lows, notwithstanding many headline risks (i.e., political uncertainties, escalating North Korea rhetoric, and Fed composition changes).

Given this backdrop of heightened risk appetite, investors continued to reach for yield throughout the year, propelling markets higher. Equities, in particular, posted impressive gains with the S&P 500 Index up 6.6% in the fourth quarter and nearly 22% for the full year while performance in traditional fixed income sectors was also positive. The Bloomberg Barclays Aggregate Index gained 3.5% in 2017, despite the steady increase in shorter-term yields that resulted in the gap between two and 10-year Treasury notes flattening to approximately 50 basis points (bps) from 125 bps at the start of the year. The fixed income universe's return was far short of the gangbusters performance of equities but still provided 120 bps of excess returns over duration-matched Treasuries. Municipals led fixed income returns, up nearly 11% during the year to outpace even emerging market credit which gained approximately 9%. Investment grade corporate credit benefitted from strong demand and returned 6.4%, while high yield experienced considerable spread tightening and was up by 7.5%. Among securitized issues, non-agency MBS continued to exhibit improving fundamental characteristics and posted consistently positive returns throughout the year to realize a nearly 10% gain for 2017 (led by option ARM and subprime collateral). Agency MBS benefitted from the backdrop of stagnant interest rates and low volatility to post a 2.5% return for the year, though headwinds - including the looming specter of a less active Federal Reserve given balance sheet normalization limited excess returns over Treasuries to just 52 bps. Asset-backed securities (ABS), a largely floating rate asset class, experienced spread tightening of about 24 bps and gained 1.6% for the year. Finally, CMBS returns were driven by nonagency CMBS, up 3.8% during the year versus a 2.7% gain for agency CMBS.

The 20UGS (UCITS) Fund – TCW Unconstrained Plus Bond portfolio returned 0.9% in the fourth quarter of 2017 and 5.8% for the full year, outperforming the Merrill Lynch U.S. LIBOR 3 Month Index by 54 bps and over 460 bps, respectively. Drivers of performance, both positive and negative, were similar in the fourth quarter and the year. Allocations across corporate credit and securitized products drove outperformance in both periods, particularly non-agency MBS as the sector continued to benefit from solid fundamentals in the form of faster prepayments and rising home values. An emphasis on government guaranteed student loan ABS also contributed, followed by incremental benefit from the portfolio's commercial MBS holdings. Corporate exposure was also significant to outperformance, with returns led by banking, communications, and consumer non-cyclical credits, while the allocation to energy provided an additional tailwind to performance given the remediation of commodity prices. Further small contributions also came from the modest exposure to emerging markets debt, which benefited from continued inflows against a backdrop of positive global growth and low inflation. Meanwhile, the duration position at approximately 1.7 years somewhat offset positive performance as U.S. Treasury rates rose across short and intermediate maturities over the past 12 months. Finally, the Fund continued to see small contributions throughout the year from the position in Japanese Government issued T-bills, with the Yen exposure fully hedged out using a Dollar-Yen cross currency swap.

Looking forward to 2018, notwithstanding the apparent tranquility in markets, we believe that risks are abundant below the surface, particularly within the below investment grade universe where there are increasingly aggressive underwriting standards, including worsening covenant quality. Investors appear far too complacent with regards to these risks, and willing to accept lower and lower compensation in the form of compressing yield spreads. With compensation near historical lows, risk appears meaningfully mispriced, with limited potential for upside going forward. Specific to the tax reform, markets have generally viewed the package as mildly stimulative to GDP, with analysts predicting a bump to GDP of between 0.2% and 0.5% over the first couple of years.

While corporate earnings overall will likely be boosted by lower tax rates, there will no doubt be industry-specific winners and losers and corporations are liable to use any realized income gains to boost shareholder friendly activities in the form of share buybacks, dividend payments, and M&A activity, potentially muting the economic upside. Further, while macroeconomic conditions look strong at first glance, there are increasing signs of stress, with growing burdens on consumer discretionary income and deteriorating underwriting standards. On the monetary side of things, the Fed's normalization process has thus far been transparent and generally uneventful, though the cumulative effect of rate hikes is a concern as monetary policy works with lags that can be long and variable. Another trend that should give investors pause is the staggering curve flattening that occurred this year, suggesting that markets are skeptical of the durability of economic growth and the potential for a policy mistake by the Fed that will end the recovery early. As we have seen in cycles past, the economy and markets can appear to be unaffected by Fed tightening for a period of time, but ultimately both succumb to the impact of tighter and more expensive cost of credit.

Informed by this context, the portfolio remains true to its disciplined, value-based approach, reflected in a focus on higher quality, more defensive areas of the market and a conservative duration profile. While concerns remain about a disorderly unwind of leverage in the credit markets, the timing of such an event is near impossible to predict, so we continue to look for opportunities to add yield while avoiding credit risk. Securitized products, which offer opportunities for attractive risk-adjusted returns, remain an emphasis and positioning favors high quality, more senior issues. Legacy non-agency MBS remains one of the most attractive sectors given the improving fundamentals – it is one of the few places where leverage is decreasing rather than the opposite. Among CMBS, exposure is skewed towards agency-backed issues as well as seasoned non-agency bonds at the top of the capital structure and single asset single borrower deals to avoid the deteriorating underwriting challenges faced by current vintage non-agency CMBS. Consistent with this defensive posture, the portfolio's ABS allocation favors sectors that offer strong structures and solid collateral such as federally guaranteed student loans and top of the capital structure CLOs. Finally, with wariness of embedded risks in the corporate credit market, the portfolio emphasizes more defensive sectors such as REITS, large U.S. money center banks, utilities, and consumer non-cyclical credits that are more likely to withstand volatility. In the current environment, where the amount of spread investors receive per unit of leverage is at historic lows, the allocation to high yield in the portfolio is similarly low. Finally, the portfolio continues to hold fully currency-hedged Japanese T-bills as a higher yielding cash substitute.

### 20UGS (UCITS) FUNDS EQUITY OPPORTUNITY

- The 20UGS Equity Opportunity Fund (Class A USD) was up +4.7% net of fees in Q4 2017. For comparison, the MSCI AC World Index was up +5.4% on the same period and the fund therefore underperformed slightly its benchmark.
- For the full year 2017, the 20UGS Equity Opportunity Fund (Class A USD) was up +23.0%, outperforming the MSCI AC World Index which was up +21.6%.
- As of 31st December 2017, the Fund was invested in 18 underlying funds:
  - o 6 Global funds including 5 active managers, and 1 smart beta investment.
  - o 1 US-focused funds, actively managed.
  - o 2 European funds including 1 active manager and 1 passive investment.
  - o 1 Japan-focused passive investment.
  - o 2 funds focused on security, including 1 active fund and 1 passive fund on cyber security.
  - o 1 infrastructure fund, actively managed.
  - o 1 high-dividend fund, actively managed.
  - o 1 active fund focused on robotics.
  - o 3 funds focused on EM equities: 2 global EM active managers and 1 global smart beta investment.
- The last quarter of the year started on a strong note. Financial markets were particularly strong in October amid robust corporate earnings and global economic resilience. The ECB taper announcement came without any surprise. November was marked in the US by positive tax reform progress and hopes for looser regulation. The S&P 500 Index delivered its 13th consecutive positive month. The rest of the equity market was more mixed with high dispersion around the globe. Euro strength was especially detrimental for European equities during the month. December proved to be a solid end to a strong year for most asset classes. The month was marked by the widely anticipated US Fed 25 bps interest rate rise, as well as growing momentum behind the US tax reform bill. In this context, global equity markets remained resilient and posted broad-based gains.
- One positive driver for the fund during Q4 and overall for the full year 2017 has been a slight overweight in EM equities, which have outperformed their developed counterparts (+7.1% in Q4 for the MSCI EM vs. +5.1% for the MSCI World). Active emerging managers remained good at catching the rally as a whole during the period but there was some dispersion among them. One smart-beta EM manager generated +10.6% in Q4, nicely outperforming, while another detracted on the back of stock selection.
- In the developed market part of the portfolio, global equity managers performed well overall. Three active managers Cantillon (+6.2%), Fiera (+5.5%) and Orbis (+8.5%) outperformed while one smart beta strategy also delivered good returns (TOBAM was up +7.3%). However, Egerton (+2.9%) continued to lag the main index due to negative news flow impacting its cable stock holdings even though its performance for the whole year was excellent. Finally, the Top 25 Fund (+3.8%) suffered on the back of stock selection within the EM allocation, affected by idiosyncratic stories.
- US equities largely outperformed their European counterparts in Q4 but the US allocation within the fund detracted from performance. Some thematic investment in the security/cybersecurity theme performed well albeit underperforming the US market. An event-driven manager focusing on fundamental changes affecting companies also underperformed, being up only +2.5%.
- Performance was poor in Europe on the back of a stronger euro. Investments in that bucket were mixed as one M&A strategy was slightly negative, while an active manager managed to offset the losses being up +2.6%, above the index.
- Finally, a good contribution came from the fund's exposure to Japanese equities. The passive exposure to Japan was up more than +9% over the guarter.
- New investments were made during the Q4. One active manager focused on robotics was added in November, and has
  its portfolio evenly split between Europe, US and Asia. This investment suffered from rotation within the Tech space on
  that period, essentially due to profit taking and contributed negatively. Another high dividend investment was added at the
  same time, and was a good contributor.

#### 20UGS (UCITS) FUNDS DIVERSIFIED OPPORTUNITY

- The 20UGS Diversified Opp (Class A USD) was up +3.8% during Q4, in line with the fund's benchmark (composed of 65% MSCI AC World, 25% BarCap Global Aggregate, and 10% HFRX Global Hedge Fund Index). For 2017 the fund was up +16.7% vs. +15.1% for the benchmark.
- Q4 was a strong end to a good year across most asset classes. Notwithstanding the Fed rate rise, markets were buoyed by the passing of US tax reforms which saw a substantial cut in corporate tax rates.
- The fund's equity exposure returned +5.5% during Q4, broadly in line with the MSCI AC World which was up +5.4%. For 2017 these holdings were up +23.0%, ahead of the index which was up +21.6%.
  - o Passive emerging market exposure continued to perform strongly across the quarter, up +7.1%. These stocks moved higher on the back of an upswing in global growth and improved commodities markets.
  - o Active managers provided mixed results but generally outperformed. One fund, which invests in high quality business which are able to sustainably generate free cash flow, delivered +8.6%. The fund was helped by good results from companies such as Microsoft and Estee Lauder.
  - o Another, more value oriented manager matched this performance helped largely by good stock picks in Asia.
  - o Although there were no negative performances within equities across the quarter, exposure to the US healthcare sector detracted on a relative basis. The sector suffered a sell-off after Trump was quoted as saying that "prescription drug prices are out of control".
- The fixed income portion of the portfolio was up +0.9% in Q4, while the Global Agg was up +0.2%. For 2017 the FI book was up +9.1%, while the Global Agg was up +3.0%.
  - o A manager with a focus on the subordinated debt of highly rated companies, particularly in the European financial sector, continued to perform strongly due to the high carry on the portfolio as well as an improved European growth outlook.
  - o Passive emerging market bond exposure also did well for the portfolio.
  - o Although positive, much more muted gains were generated by passive Treasuries exposure.
- Alternatives were up +1.5%, performing in line with the HFRX Global Hedge Fund Index. For the year, the fund's holdings were up +3.4%, behind the index (+6.0% for the HFRX).
  - o Passive exposure to European real estate contributed strongly, up +5.3% over the quarter, helped by an improved growth outlook for Europe.
  - o A multi-manager hedge fund continued to generate steady gains, up +0.9%. The fund has a credit bias and little in the way of equity beta which detracted on a relative basis.
  - o A UK based infrastructure closed-end vehicle was up +1.2% over the quarter, recovering slightly towards the end of the year from a lackluster performance. It was impacted by a more hawkish rates outlook and criticism from the leftwing Labour Party's leader, Jeremy Corbyn.
- At the end of the guarter, allocations were as follows:
  - o 5 fixed income funds (2 passive US Treasury ETFs, a passive EM debt ETF, a subordinated financials fund, and a Latin American corporate credit fund).
  - o 12 equity funds (8 passive, 4 active).
  - o 3 alternative investments (a multi-manager UCITS, a listed closed-end infrastructure fund, and a passive ETF of listed European real estate).

Asset Allocation as of 31st December

### 20UGS (UCITS) FUNDS FIERA GLOBAL EQUITY

The Fiera Global Equity strategy was up in both absolute performance and outperformed the MSCI World Index in the 4th quarter of 2017.

Among the leading contributors to the portfolio's performance were InterContinental, Sherwin-Williams, Nike and Fanuc. InterContinental posted improved results and will be a beneficiary of the corporate tax reform in the US, as over half of their revenues come from the United States. Sherwin-Williams closed their Valspar acquisition and announced greater synergies than previously outlined. The company is also a beneficiary of continued solid housing activity in its retail paint division. Nike was also a detractor in the prior guarter and rebounded following the release of good results, coming in ahead of expectations led by solid growth in China. Nike also hosted a well-received investor day in late October that highlighted upcoming product innovations that should drive further growth. Finally, we see Nike's increasing direct to consumer presence (owned retail stores and online sales) as an opportunity to increase overall margins. Fanuc's stock was driven by strong earnings including positive guidance and strong margins, as well as the introduction of their FIELD technology solution. FIELD, which allows Fanuc and 3rd party developers to write applications for industrial robots, is expected to generate additional service revenues from Fanuc's existing installed base and could potentially lead to market share gains. The leading detractors in the quarter included Svenska Handelsbanken, Unilever and Geberit. Svenska Handelsbanken reported good quarterly results in Q4, but underperformed relative to the market in the quarter, along with the other Nordic banks, as other sectors and countries benefited more from the global growth. Additionally, Svenska Handelsbanken, considered as one the of the safest and highest quality bank in the world, lost some of its premium valuation on higher capital regulatory requirements and lack of capital return in the year. Meanwhile, Unilever, a strong performer in the middle of the year, reported organic growth below expectations. Natural disasters and a weak performance of the ice cream division due to poor weather, along with competition from new entrant Halo (a low calorie/high protein ice cream) were to blame. Personal Care growth was also weaker than expected. We continue to see Unilever as a margin expansion story with good Emerging Market exposure. Geberit's stock traded down after a slight earnings miss, as it was highly valued. Geberit also announced that they would be putting in price increases to offset cost increases in raw materials. We do not believe there is a change to the thesis or long-term potential of the company.

During the quarter we eliminated our position in Tractor Supply Co and initiated a position in Alphabet, the parent company of Google. Tractor Supply will be investing more in e-commerce initiatives at the expense of new store openings. We see a slight decline in growth and ROIC and saw Alphabet as having better prospects. As for Alphabet, the company has a strong culture of innovation and multiple billion-user platforms such as Gmail, Android, Maps and YouTube. The company is now managed by its 2nd generation of executives and has continued to demonstrate the ability to navigate through the rapid changes that characterizes its industry. As such, we believe Alphabet is well positioned to continue to capitalize on the attractive growth drivers provided by an increasingly connected world. Lastly, we expect the company to eventually monetize some of its other bets, which currently understate the earnings power of the entire organization.

Our sector and regional weights are driven by bottom up stock selection. As we enter the first quarter of 2018, we remain underweight the Euro zone, the United States and Japan as we continue to find more attractive opportunities in other parts of the world, such as Switzerland and Emerging Markets. We are currently overweight Industrials, Consumer Staples and Health Care while underweight Energy, Real Estate and Utilities.

Gross performance results do not reflect the deduction of management fees or other expenses. For additional information, please refer to the "Important Disclosure Information" section of this report. Past performance is not indicative of future results, and there can be no assurance that comparable results will be achieved. Inherent in any investment is the potential for loss.

### **Independent Auditor's Report**

To the Shareholders of 20UGS (UCITS) FUNDS 28-32, Place de la gare L-1616 Luxembourg

#### **Opinion**

We have audited the financial statements of the 20UGS (UCITS) FUNDS, which comprise the statement of net assets and the statement of investments and other net assets as at December 31, 2017, and the statement of operations and the statement of changes in net assets for the year from January 1, 2017 to December 31, 2017, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at December 31, 2017, and of the results of their operations and changes in their net assets for the year then ended December 31, 2017 in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under those Law and standards are further described in the « responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### Responsibilities of the Board of Directors of the Fund and those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

### Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and
  perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a
  basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting
  from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### 2 - Significant accounting policies

### 2.1 Presentation of financial statements

The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment.

### 2.2 Valuation of investment in securities

The Net Asset Value is determined on the basis of the value of the underlying investment of the relevant Sub-Fund, as follows:

- 2.2.1 The value of any cash on hand or on deposit, bills and demand notes payable and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- 2.2.2 The value of any security or other asset which is quoted or dealt in on a stock exchange will be based on its last available price on the stock exchange which is normally the principal market for such security.
- 2.2.3 The value of any security or other asset dealt in on any other regulated market that operates regularly, is recognized and is open to the public (a "Regulated Market") will be based on its last available price in Luxembourg.
- 2.2.4 In the event that any assets are not listed nor dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange or on any other Regulated Market as aforesaid, the price is not, in the opinion of the Board of Directors, representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith.
- 2.2.5 Units or shares of undertakings for collective investment will be valued at their last determined and available net asset value or, if such price is not, in the opinion of the Board of Directors, representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis.
- 2.2.6 The liquidating value of futures, spot, forward or options contracts not traded on stock exchanges nor on other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts.

The liquidating value of futures, spot, forward or options contracts traded on stock exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on stock exchanges and Regulated Markets on which the particular futures, spot, forward or options contracts are traded by the Fund; provided that if a futures, spot, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. Swaps will be valued at their market value.

- 2.2.7 The value of money market instruments not traded on stock exchanges nor on other Regulated Markets and with a remaining maturity of less than 12 months and of more than 90 days is deemed to be the nominal value thereof, increased by any interest accrued thereon. Money market instruments with a remaining maturity of 90 days or less will be valued by the amortized cost method, which approximates market value.
- 2.2.8 Expenses incurred in connection with the incorporation of the Fund are amortized over a maximum period of five years.
- 2.2.9 All other securities and other assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.
- 2.2.10 Interest rate swaps will be valued at their market value established by reference to the applicable interest rates' curve.

## 3 - Management Company fees

Pursuant to the Management Company Agreement, the Management Company in remuneration for its services is entitled to receive:

- 20UGS (UCITS) FUNDS TOP 25 EQUITY:

### 4 - Investment Management Fee

Pursuant to the Investment Management Agreement, the Management Company shall pay or cause to be paid, at the expense of the Sub-Fund, an investment management fee to the Investment Manager in remuneration for its services. Such investment management fee is equal to:

• 20UGS (UCITS) FUNDS TOP 25 EQUITY:

0.65% per annum of the average net assets of the Classes P and A of the Sub-Fund during the relevant quarter. Such fees are payable guarterly in arrears.

• 20UGS (UCITS) FUNDS TCW UNCONSTRAINED PLUS BOND STRATEGY:

The Management Company shall pay or cause to be paid, at the expense of the Sub-Fund, to the Investment Manager and the Global Distributor in remuneration for their respective investment management, distribution and marketing services, an aggregate Investment Management Fee and Global Distribution Fee not exceeding:

- 0.80% per annum of the average net assets of the Classes I of the Sub-Fund during the relevant quarter.
- 0.95% per annum of the average net assets of the Classes A of the Sub-Fund during the relevant quarter.
- 1.35% per annum of the average net assets of the Classes P of the Sub-Fund during the relevant quarter. Such fees are payable quarterly in arrears.
- 20UGS (UCITS) FUNDS EQUITY OPPORTUNITY:

0.50% per annum of the average net assets of the Classes P and A of the Sub-Fund during the relevant quarter. Such fees are payable quarterly in arrears.

• 20UGS (UCITS) FUNDS DIVERSIFIED OPPORTUNITY:

0.50% per annum of the average net assets of the Classes P and A of the Sub-Fund during the relevant quarter. Such fees are payable quarterly in arrears.

- 20UGS (UCITS) FUNDS FIERA GLOBAL EQUITY:
- 0.50% per annum of the average net assets of the Classes P and A of the Sub-Fund during the relevant quarter.
- 0.80% per annum of the average net assets of the Classes F of the Sub-Fund during the relevant quarter. Such fees are payable quarterly in arrears.

#### 5 - Global Distributor fee

Pursuant to the Global Distribution Agreement, the Management Company shall pay or cause to be paid at the expense of the Sub-Fund a global distribution fee (the "Global Distribution Fee") to the Global Distributor in remuneration for its distribution and marketing services. Such Global Distribution Fee is equal to:

- 20UGS (UCITS) FUNDS TOP 25 EQUITY:
- 1.15% per annum of the average net assets of the Classes P of the Sub-Fund during the relevant quarter.
- 0.60% per annum of the average net assets of the Classes A of the Sub-Fund during the relevant quarter. Such fee is payable quarterly in arrears.
- 20UGS (UCITS) FUNDS TCW UNCONSTRAINED PLUS BOND STRATEGY:

Details on the fees are provided under Note 4 above.

- 20UGS (UCITS) FUNDS EQUITY OPPORTUNITY:
- 0.40% per annum of the average net assets of the Classes A of the Sub-Fund during the relevant quarter.
- 1.00% per annum of the average net assets of the Classes P of the Sub-Fund during the relevant quarter. Such fee is payable quarterly in arrears.
- 20UGS (UCITS) FUNDS DIVERSIFIED OPPORTUNITY:
- 0.50% per annum of the average net assets of the Classes A of the Sub-Fund during the relevant quarter.
- 0.90% per annum of the average net assets of the Classes P of the Sub-Fund during the relevant quarter. Such fee is payable quarterly in arrears.
- 20UGS (UCITS) FUNDS FIERA GLOBAL EQUITY:
- 0.50% per annum of the average net assets of the Classes A of the Sub-Fund during the relevant quarter.
- 1.30% per annum of the average net assets of the Classes P of the Sub-Fund during the relevant quarter.
- 0.20% per annum of the average net assets of the Classes F of the Sub-Fund during the relevant quarter. Such fee is payable quarterly in arrears.

This fee is included in the caption "investment management and global distributor fees".

#### 6 - Performance Fees

For 20UGS (UCITS) FUNDS TOP 25 EQUITY, the Investment Manager is entitled to a performance fee which will be calculated and paid in accordance with the following principles.

The performance fee calculation adheres to the High Water Mark principle which foresees that performance fees will only be accrued and paid if the Net Asset Value per Share of the relevant Class of Shares at the end of a Performance Period exceeds the highest Net Asset Value per Share of that Class of Shares in relation to which a performance has ever been paid ("High Water Mark"). For the purpose of this Sub-Fund, a Performance Period means a calendar quarter.

The performance fee is also geared to the following rules:

- (a) The hurdle rate for the calculation of the performance fee is MSCI AC World Index (BB Ticker: MXWD Index). The performance fee amounts to no more than 10% of the appreciation in the Net Asset Value per Share that is above the hurdle rate and the High Water Mark.
- (b) Any given positive balance of such accrued and set aside performance fees will be paid to the Investment Manager within the first ten Business Days after the end of the relevant Performance Period.
- (c) If a shareholder redeems or switches all or part of its Shares before the end of a Performance Period, any accrued performance fee with respect to such Shares will crystallise on that Business Day and will then become payable to the Investment Manager.

## 7 - Fees of the Depositary Agent

The Depositary Agent will receive, out of the assets of each Sub-Fund, a fee calculated in accordance with customary banking practice in Luxembourg as a percentage per annum of the average quarterly thereof net assets during the relevant quarter and payable quarterly in arrears.

The Depositary Agent will be paid up to 0.06% (excluding transaction fees) on the average net assets, subject to a minimum of EUR 14 000 per annum and per Sub-Fund.

## 8 - Fees of the Domiciliary and Corporate Agent, Administrative Agent and Registrar Agent

The Domiciliary and Corporate Agent, Administrative Agent and Registrar Agent, is entitled to receive, out of the assets of each Sub-Fund, a remuneration calculated in accordance with customary banking practice in Luxembourg and expressed either as flat fees payable yearly or quarterly in arrears or as a percentage per annum of the average quarterly thereof net assets during the relevant quarter and payable quarterly in arrears.

In this respect, the Fund pays the Domiciliary and Corporate Agent, Administrative Agent and Registrar Agent a total fee in an amount of up to 0.08% (excluding transaction fees) per annum of the average Net Asset Value subject to an annual minimum of between EUR 26 000 and EUR 28 000 per Sub-Fund, depending on the size of Sub-Funds and if they are having a weekly or a daily NAV. Each Sub-Fund will bear its proportionate share of the annual fee paid for the services as Domiciliary and Corporate Agent.

In addition, the Domiciliary and Corporate Agent, Administrative Agent and Registrar Agent, is entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses and disbursements.

#### 9 - Remuneration Directors fees

During the year ended December 31, 2017, directors' fees (excluding out-of-pocket and dolly expenses amounting to EUR 500) amounting to EUR 20,000 have been paid.

#### 10 - Taxation

The Fund is not liable to any Luxembourg tax on profits or income. The Fund is, however, liable in Luxembourg to a tax (taxe d'abonnement) of 0.05% per annum of its Net Asset Value, (this tax is reduced to 0.01% per annum of its Net Asset Value for Classes intended for institutional investors), such tax being payable quarterly on the basis of the value of the aggregate net assets of the Sub-Funds at the end of the relevant calendar quarter. However, the portion of assets which are invested in units or shares of UCIs shall be exempt from such tax as far as those UCIs are already submitted to this tax in Luxembourg.

No stamp duty or other tax is payable in Luxembourg on the issue of Shares.

No Luxembourg tax is payable on the realised capital appreciation of the assets of the Fund.

Interest, dividend, capital gains and other income realised by the Fund on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied by the jurisdictions in which the income is sourced. It is impossible to predict the rate of foreign tax the Fund will pay since the amount of the assets to be invested in various countries and the ability of the Fund to reduce such taxes is not known.

## **Unaudited Information**

## 1 - Global Risk Management

In terms of risk management, the Board of Directors of the Fund selected the commitment approach in order to determine the global risk for all Sub-Funds.

### 2 - Remuneration policy - Appendix

Duff & Phelps (Luxembourg) Management Company S.à r.l. ("DPLMC") is an authorized Chapter 15 Management Company ("ManCo") as per the meaning of the law of December 17, 2010 as well as an authorized Alternative Investment Fund Manager ("AIFM") as per the meaning of the law of July 12, 2013.

As a result, DPLMC has to comply with the requirements set forth in the UCITS and AIFM regulations when it comes to remuneration.

The Compliance Officer regularly assesses the adherence of DPLMC with the requirements set forth in both the UCITS and the AIFM directive when it comes to remuneration.

The key principles of the remuneration policy are as follows:

- 1. Every single employee of DPLMC is entitled to a fixed salary and capped pension benefits as well as a discretionary bonus (not guaranteed), the amount (which can be nil) of which depends both on his/her individual performance in respect of the tasks he/she is assigned to and the achievement of objectives set forth at the beginning of each fiscal year and the overall performance of Kinetic Partners Business Unit as a whole.
- 2. There is no direct relation between the total remuneration (being understood as salary, bonus and pension benefits) and the performance of the funds for which DPLMC acts as ManCo or AIFM, as the portfolio management function is completely delegated to third party investment managers.
- 3. The assessment on the level of remuneration of every employee is reviewed by the Board of Directors of DPLMC at least on an annual basis, taking into account the following components:
- a. Labour market conditions and seniority gained (for determining the fixed salary terms).
- b. Individual performance and Duff & Phelps Service Line performance (for determining if a bonus is to be paid or not to an employee). If an employee leaves the company before the end of the performance cycle year, he/she is not entitled to any bonus.
- c. Adherence to the Serivce Line and overall Duff&Phelps policies in terms of risk awareness, compliance with regulations (including PA dealing) and ethics at work, as described in the staff manual, the provisions of which every staff member has adhered to when joining the company.
- 4. DPLMC compliance officer carries out on at least an annual basis a review of the compliance of the prevailing remuneration conditions with the principles of this policy and the overall compliance of the policy with the existing regulatory framework. This review is materialized by dashboard including an assessment onto whether the current situation is compliant or not that is afterwards validated by the Board.

Further information about this policy can be asked to the compliance officer of DPLMC.

For the year ended as at December 31, 2017, the total of the remunerations paid by the Management Company to its staff was the following:

Fixed Remuneration: EUR 791 949.09
 Variable Remuneration: EUR 25 000

Eleven employees benefited from this remuneration. Each of those beneficiaries were fully or partly involved in the activity of the Fund.

Their remuneration was broken down as follows:

Top Managers: EUR 475 733.7Staff Members: EUR 316 215.39
